PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with proven experience designing and developing scalable web and blockchain applications. Skilled in cross-functional collaboration, modern JavaScript frameworks, API integrations, microservices architecture, and agile development. Passionate about delivering secure, user-centric products and driving continuous improvement through clean code and best practices.

EDUCATION

- **Federal Urdu University of Arts, Science & Technology**   Islamabad, Pakistan
  Bachelor's Degree in Computer Science

EXPERIENCE

- **droppGroup Hybrid**   04/2025 – Present
  Full Stack Developer
  - **Web3 Development**: Integrated MetaMask, WalletConnect for secure Web3 authentication, enabling seamless blockchain transactions.
  - **Performance Optimization**: Built high-performance React, Next.js, Tailwind CSS apps, improving load time by 30% via SSR, SSG, and dynamic imports.
  - **Backend Architecture**: Developed scalable Node.js microservices; implemented REST APIs with Express.js, enhancing system scalability.
  - **Database Management**: Optimized MongoDB, MySQL, Redis performance; reduced query latency by 20%.
  - **Team Collaboration**: Worked in agile sprints with UI/UX, product, and QA teams; participated in code reviews and CI/CD pipelines.

- **Code Enterprise Pvt Ltd**   08/2023 – 04/2025
  Full Stack Developer
  - **Frontend Engineering**: Led development of reusable UI components using React.js, Next.js, shadcn/ui, MUI, and Tailwind CSS.
  - **SEO and Accessibility**: Enhanced app SEO and accessibility using Next.js features, improving organic reach and user satisfaction.
  - **Secure Authentication**: Implemented JWT, NextAuth.js for role-based access control and secure user management.
  - **State Management**: Managed global state using Redux Toolkit, Context API; ensured session persistence with localStorage.
  - **DevOps Practices**: Containerized applications with Docker, supporting consistent deployment across dev and production.

PROJECTS

- **d-gn.io**: https://app.d-gn.io
- **Dropp RWA**: https://dropprwa.com
- **Data Guardians Network**: https://dataguardians.network
- **Dropp Group**: https://droppgroup.xyz/
- **Data Guardians**: https://dataguardians.xyz/
- **Ikmal**: https://www.ikmal.sa/
- **Prime Referral**: https://primereferral.us/

TECHNICAL SKILLS

- **Languages**: JavaScript (ES6+), TypeScript, Python, PHP

  Frameworks & Libraries: React.js, Next.js, Tailwind CSS, shadcn/ui, MUI, Bootstrap

  Backend & Databases: Node.js, Express.js, MongoDB, MySQL, Redis, REST APIs

  DevOps & Tools: Docker, Git, CI/CD, Agile, Figma, JWT, NextAuth.js, Redux Toolkit, Axios
